

## Motions for the LMC Conference

### North-East Hants

1. This Conference believes any changes or additions to the Quality and Outcome Framework, including achievement thresholds, must attract additional funding
2. This Conference believes that contracts for Enhanced Services should last for more than one year in order to reduce the risk to practices of investing to improve services
3. This Conference believes Community Matrons will only be effective if they are attached to individual practices or groups of practices.
4. This Conference believes that Walk-In Centres are detrimental to continuity of care and should be obliged to forward, as soon as possible, relevant medical information to the attendee's GP
5. This Conference instructs the GPC to renegotiate the limited list of activities for which practices can charge their own patients, with particular emphasis on the provision of convenient services such as e.g. an Out of Hours surgery or minor surgery at weekends .
6. That Conference instructs the GPC that, when negotiating any future contracts, it should ensure the merger of nGMS and PMS.
