

Motions for LMC Conference

Portsmouth, SE Hants & Isle of Wight

1. This Conference believes that the denigration of small practices by the Department of Health should be condemned and strongly resisted by the GPC
2. This Conference believes that paucity of resources within the NHS makes Choice a figment of politicians' imagination

Submitted by Dr. Julian Neal:

3. That Conference believes the deliberations of the Technical Steering Group (TSC) should be made public and therefore instructs the GPC to seek from the DoH an undertaking that a joint TSC report will henceforth be prepared and published every quarter.
